

## Idea Farming: A Science Guys Read #1 ...on Writing (A Science Guys Read on) (Volume 1)

As the subtitle state, this is A Science Guys Read on Writing. Over 8 chapters, the booklet explores how to find and idea and develop it into everything from a short story to a novella to a novel to a book series. Using the analogy of various types of gardening and farming, author C. R. Downing presents personal experience and advice gleaned from others over his writing career. Written in a conversational style, the booklet is designed for budding and experienced writers from teenagers through adults. While many of the examples included focus on science fiction writing, Downings primary genre, the underlying principles and process easily lend themselves to application in any fiction field. Readers who are looking for practical, easy to understand methodologies and tips on improving their writing will find this book an invaluable addition to their libraries--one that is consulted often.
